HARDWARE AND ADVANCE COURSE MANAGEMENT FEATURES

AutoView Technology

Utilizing "buttonless" and "touchless" technology, AutoView enables golfers to change between their most popular screens, including HoleVue, IntelliGreen and their Scorecard, with just a simple turn of the wrist from portrait to landscape positions. [Learn More ...](#)

New Design With Brilliant Color Display

Durable, sleek design with a large 3-inch, high-resolution, transfective TFT-LCD screen for brilliant images in the brightest sunlight.

Dual Navigation

Golfer friendly, one-handed operation provides more precise positioning and better accuracy without obscuring screen information with fingers and smudges.

TruePoint™ GPS Precision Positioning Technology

High performance GPS engine for ultra-fast satellite acquisition and unmatched accuracy and reliability. You can't trust your club if you can't trust your caddie.

Omni-Directional, High Performance GPS Antenna

Locks quickly to more satellites and stays locked to optimize performance and accuracy in all terrains, even under tree foliage.

High Precision Ground-Verified Course Maps*

Only SkyCaddie walks every course to make sure you have information you can trust. No Tour Player uses yardage books derived from satellite images or flyovers. Neither should you. Get unlimited access to the most

complete, most reliable, ground-verified course maps in the game with a simple annual plan with no hidden fees or variable charges.

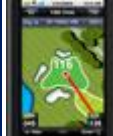

Preloaded Courses†

Up to 30,000 course maps are preloaded and ready-to-play out of the box with Basic Green information. Plus store up to 50 full-featured courses through a SkyCaddie Membership Plan.*

Hazards, Carries and Layups*

SkyCaddie records thousands of points on each golf course with sub-meter precision. Distances to hazards, carries and layups are displayed automatically as you move down the course. Knowing these critical distances lets you to manage your game and eliminate those 6, 7, and 8's from your scorecard.

Interactive HoleVue™ With Zoom*

SkyCaddie is creating, at a rate of hundreds per month, the only high-precision graphics library of every golf hole, based on ground-corrected data. With HoleVue, you'll know the distance to any point on a hole in order to play that hole with the fewest strokes. Need a close-up view to strategize your next shot? HoleVue includes a patented zoom function to dial into the exact area you need to see.

IntelliGreen®*

With SkyCaddie's patented IntelliGreen® technology, the exact shape of the green automatically rotates to match your angle of approach to provide all of the distances you need to hit more greens and avoid 3-putts. This proprietary feature gives you a chance to turn every shot into a scoring opportunity by providing front carry and back distances, depth of green, and distances to any other point on the green — simultaneously.

IntelliGreen® Pro™*

Built on proven IntelliGreen technology, IntelliGreen Pro is another proprietary feature that adds distances to major green contours, false fronts, front carry and back distances — plus any other point on

the green from your angle of attack. This kind of crucial scoring information is only possible by precision-mapping a golf course from the ground with sub-meter accuracy...and it's only available with SkyCaddie.

Measure Any Shot

Discover exactly how far you hit every club in your bag. Knowing your club distances gives you another way to manage your game better.

Digital Scorecard and Stat Tracking

Track your score for every round with the SkyCaddie's Digital Scorecard, plus see key stats like GIR, fairways hit and total putts with ease. Sync with ClubSG™ for the most comprehensive round analysis in the game.

ClubSG™*

Get better connected to your game, your course, your equipment, your teacher and other golfers. Sync and store your game data in your Personal Performance Locker, track key stats, learn about courses, find a PGA Professional near you, learn if your equipment is helping or hurting your game and share your experiences with other golfers. † Preloaded courses that include Basic Green information are FREE for 30 days. * After 30 days, Basic Green information as well as Advanced Green and Course features require one of several nominally-priced Annual Membership Plans.
